Access more than 100 cases on gastrointestinal imaging for the best board review possible!<?xml:namespace prefix = "o" ns = "urn:schemas-microsoft-com:office:office" />

Part of McGraw-Hill's *Radiology Case Review Series*, this unique resource challenges you to look at a group of images, determine the diagnosis, answer related questions, and gauge your knowledge by reviewing the answer. It all adds up to the best case-based review of gastrointestinal imaging available—one that's ideal for certification or recertification, or as an incomparable clinical refresher.

Distinguished by a cohesive 2-page design, each time-saving volume in this series is filled with cases, annotated images, questions & answers, pearls, and relevant literature references that will efficiently prepare you for virtually any exam topic.

Radiology Case Review Series Features

- **Approximately 150 cases for each volume**, which consist of:
 - o Precise, state-of-the-art images accompanied by questions and answers, descriptions of the entities, insightful clinical pearls, and reference lists
 - o Intensive coverage of fundamental radiology principles, the latest diagnostic imaging techniques, radiology equipment, new technologies, and more
- **Unique 2-page format for each case**, which features:
 - o Images with 5 questions on the right-hand page
 - o Magnifications, annotations, and detailed answers on the verso page?a benefit that you'll find only in this exceptional series!
 - o Informative, bulleted comments box that provides important additional context for each case
- **Cases organized and coded by difficulty level** allowing you to evaluate your proficiency before progressing to the next level
