Hired to hunt down and track a rogue group of big cats on an unknown island, Yvonne Jackson thought it would be a piece of cake with all her years of experience in the field. She'd been given a special pheromone to draw the genetically altered beasts straight to her. What she didn't count on, was that these were no normal animals, or that the pheromone, once leaked on her, would drive them insane with lust...for her. Armando, Raphael, and Remy had watched the exotic beauty on the island for days, sabotaging her every move, until she unleashed a scent so potent that every escaped shape-shifter on the island was compelled to come straight for her. It was all they could do to resist the powerful call themselves, and save her from the were-cats intent on taking her. Yvonne would be theirs, whether she realized it or not, for they had every intention of claiming her for themselves.
