First published in 1963.

When originally published this book was the first to treat at full length the contribution which music makes to Shakespeare's great tragedies, among them *Hamlet*, *Othello*, and *King Lear*. Here the playwright's practices are studied in conjunction with those of his contemporaries: Marlowe and Jonson, Marston and Chapman. From these comparative assessments there emerges the method that is peculiar to Shakespeare: the employment of song and instrumental music to a degree hitherto unknown, and their use as an integral part of the dramatic structure.
