The unique design usually involves a number of turning wheels on which the information has been organized in such a way as to allow rapid access and instant recognition.

Extensive research has been put into each Decoder to ensure that all data is comprehensive and up to date. The data is presented in its purest format. This allows very large amounts of information to be presented in a physically small space. The information density makes each Decoder equivalent to a substantial book.

The Decoder concept is very ecologically as it presents a maximum amount of information using a minimum amount of material resource. The Decoders are made from durable materials and coated for protection.
