Access the clinically relevant information you need easily in any setting with **Mosby's Diagnostic and Laboratory Test Reference, 10th Edition**. This bestselling handbook provides concise coverage of tests without sacrificing important details. Each test entry includes, where relevant, alternate or abbreviated test names; type of test; normal findings; possible critical values; test explanation and related physiology; contraindications; potential complications; interfering factors; procedure and patient care (before, during, and after); and abnormal findings. Related tests are extensively cross-referenced throughout the book. With its simple format and portable size, this is a handy reference you'll always want by your side.

- Tests are organized alphabetically with A-to-Z thumb tabs for quick reference.
- **UNIQUE!** Each test entry begins on a new page, making tests easy to find.
- Normal findings for adult (male and female), elderly, and pediatric patients are included where applicable to provide complete clinical data.
- Possible critical values are highlighted to alert you to situations requiring immediate intervention.
- Symbol next to drug-related interfering factors alerts you to the effects of pharmacologic agents on tests.
- Increased and decreased abnormal findings are highlighted with directional arrows.
- Icon for patient teaching-related care indicates information to share with patients and their families.
- **UNIQUE!** Each test concludes with a *Notes* section where you can add your own information.
- *User's Guide to Test Preparation and Performance* provides an overview and guidelines for each type of laboratory test and diagnostic procedure to ensure safety and accuracy.
- Lists of tests by body system and test type allow you to quickly locate related studies.
- Abbreviations for tests are listed inside the front and back covers, and symbols and units of measurement are listed in an appendix.
- **UNIQUE!** Durable cover with round edges helps prevent the book from being damaged and makes it easier to handle.

~

- **32 NEW tests**, including age-related macular degeneration risk analysis, cell culture drug resistance testing, flourescein angiography, HIV drug resistance testing, urea breath test, virus testing, and Vitamin D testing, present the latest information on diagnostic and laboratory testing.
