Red Sea Reef Guide, 5th Revised Edition 2011

Helmut Debelius

Red Sea Reef Guide, 5th Revised Edition 2011 Helmut Debelius

The Red Sea is home of a unique fauna due to its almost isolated position near the Indian Ocean and therefore is one of the most fascinating diving areas of the world.

Over ten per cent of its fish species are endemics found exclusively between the Suez Canal in the north and the Gate of Lamentations (Bab-el-Mandeb) in the south. As part of the Indian Ocean the Arabian Sea surrounds the rest of the Arabian Peninsula.

A combined presentation of the faunas of both these tropical seas around Egypt, Israel, Jordan, Sudan, Saudi Arabia, Yemen, and Arabian Peninsula, this book is perfectly illustrated with over 1100 photos from the natural environment of the animals on 322 pages. It is a treasure of information for divers, aquarium hobbyists and fish import/exporters.

The relation price/achievement is unbeatable!
