Christian Légaré

uC/TCP-IP and the STMicroelectronics STM32F107 Christian Légaré

This two-part book puts the spotlight on how a TCP/IP stack works using Micrium's μ C/TCP-IP as a reference. Part I includes an overview of the basics of Internet Protocol, and walks through various aspects of μ C/TCP-IP implementation and usage. Part II makes use of the versatile Evaluation Board μ C/Eval-STM32F107 (sold separately through Micrium) that is available for use with the book μ C/OS-III: The Real-Time Kernel, as well as the IAR EWARM Development Environment and Application Examples for the STMicroelectronics STM32F107. The application examples in Part II of this book enable readers to develop their own prototypes using the expandable Evaluation Board. This book is written for serious embedded systems programmers, consultants, hobbyists, and students interested in understanding the inner workings of a TCP/IP stack. μ C/TCP-IP is not just a great learning platform, but also a full commercial-grade software package, ready to be part of a wide range of products. The topics covered in this book include: Ethernet technology and device drivers IP connectivity Client and Server architecture Socket programming UDP performance TCP performance System network performance

From reader reviews:

Anthony Thies:

In this 21st millennium, people become competitive in every way. By being competitive today, people have to do something to make them survive, being in the middle of typically the crowded place and notice by simply surrounding. One thing that at times many people have underestimated the idea for a while is reading. Sure, by reading a reserve your ability to survive boost then having chance to remain than other is high. To suit your needs who want to start reading any book, we give you this particular uC/TCP-IP and the STMicroelectronics STM32F107 book as basic and daily reading publication. Why, because this book is usually more than just a book.

Fred Ashman:

uC/TCP-IP and the STMicroelectronics STM32F107 can be one of your beginning books that are good idea. Most of us recommend that straight away because this book has good vocabulary that may increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The article writer giving his/her effort to put every word into joy arrangement in writing uC/TCP-IP and the STMicroelectronics STM32F107 but doesn't forget the main stage, giving the reader the hottest and also based confirm resource info that maybe you can be certainly one of it. This great information may drawn you into fresh stage of crucial considering.

William Troutt:

In this period globalization it is important to someone to obtain information. The information will make professionals understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You can observe that now, a lot of publisher that print many kinds of book. The particular book that recommended to you personally is uC/TCP-IP and the STMicroelectronics STM32F107 this publication consist a lot of the information on the condition of this world now. This book was represented how does the world has grown up. The terminology styles that writer use to explain it is easy to understand. Often the writer made some study when he makes this book. This is why this book ideal all of you.

Diane Walker:

What is your hobby? Have you heard in which question when you got students? We believe that that query was given by teacher to the students. Many kinds of hobby, All people has different hobby. And also you know that little person just like reading or as looking at become their hobby. You must know that reading is very important along with book as to be the thing. Book is important thing to add you knowledge, except your own teacher or lecturer. You will find good news or update about something by book. Many kinds of books that can you choose to adopt be your object. One of them is actually uC/TCP-IP and the STMicroelectronics STM32F107.
