A stroll on the beach where you find the waves that crash by your side is reflected by the sun's beauty shining on the edge of the world. Truly there is a sky of crimson and blood with the way it is presented with the curtains hanging overhead! Tempestuous reaches to the skies they light up a moment not too soon but the sun has reached its head and broke free so that it can bring about the glamour of those around it. Shining brightly and under the banner it is a radiant reminder all this- this performance is but a one-man show. Done in a blink of an eye we are reminded that when the sun sets it is in the elegance that we will see that we are beyond its true regale. Stare in the sun, all you want but in the end it is the sun that stares us so blindly and fruitfully till we become grounded to her essence and its season of summer.
