## **The Steven Avery Coloring Book**

### ***Making a Murderer Adult Coloring Book***

This is a coloring book that is different from the run of the mill coloring nonsense you'll see on your bookstore shelves, or in the annals of Amazon. This is the book that allows you to voice your opinion by using your markers! Is Steven Avery guilty? Did he do the first murder? How about the second one? Was he illegally prosecuted the first time? Did the "system" collude to have him incarcerated . . . forever?

We will not attempt to answer these questions because you will do so by the work of your markers and pens and pencils and crayons! We have gathered a smattering of sketches, designs, impressions and cartoons that you can make your own. As you go through the coloring book, look for clues that might be hidden in the images.

When you color a particularly interesting image, take a picture of it with your phone (or screenshot) and post it to instagram with (#StevenAveryColoringBook) and we will pick interesting pics and artists to receive free books and other neat stuff!

Now, this book is not meant to lean one way or the other. We believe that Steven Avery deserves a non-biased look at the evidence from parties that are not in any way related to the original cases. It's clear there were dubious individuals responsible for his original arrest, conviction, incarceration, etc. Only you can make a decision on how you feel.

This book has been a collaborative effort between artists, designers, and psychologists. This book not only soothes you, but also increases mental stimulation. The pictures and designs may seem random at first glance, but they're anything but.

Our idea with this project was to both inspire you, and increase neuronal activity and stimulation in a way that activates very unique parts of your mind. There are fields of research suggesting that both children and adults who work with coloring books and designs can effectively raise their IQ.

So have fun, relax, let the markers and pens do what they will, and hang on for an incredible, mind altering ride! We hope to give the designer (you) a very introspective and mind expanding experience.

To help you bring your full art and color to life, we've left the outlines slightly gray instead of harsh black. Your ideas and the beauty you create are more important than the original designs. This is for you!

#### **MARKER NOTE:**

\* The Kindle Version of this book is Free if you've purchased the Paperback! Anyway, you might also be printing the different pictures out for later coloring so: If you feel like using markers, we suggest Staedtler Triplus Fineliner marker pens. They're easy to use and are very good when it comes to bleeding issues. We've chosen a paper that we feel offers the best compromise between durability and brightness so that your ideas come to life without being encumbered by the paper.
