Field Editor Bill Winke has become one of North America's most accomplished whitetail hunters largely by understanding how deer relate to the landscape. In Creeks & Ditches Bill offers valuable insights for hunting these classic whitetail funnels. From how to identify potential hot spots on topographic maps and aerial photos to on-the-ground scouting techniques to selecting stand sites and actual hunting. Bill takes you on an in-depth, step-by-step journey that reveals how deer predictably relate to creeks and ditches in your hunting area. And thanks to the included 45 minute companion DVD, you can not only read about these amazing hunting strategies but watch them in action as Bill walks his own hunting ground and provides real-world examples of how to apply his techniques. You'll be seeing more deer and punching more tags in no time!
