"This exciting book is a *tour de force*, spanning a broad range of approaches to development. It does not stop at critique, as so many previous books on these issues have done, but offers a unique perspective on future possibilities and the shape of things to come. It should be essential reading on all development studies courses".

*- Andrea Cornwall, Institute of Development Studies, University of Sussex*

Praise for the previous edition:

- Provides an unrivalled guide to the strengths and weaknesses of competing theoretical approaches.
- Explains key concepts.
- Examines the shifts in theory.
- Offers an agenda for the future.

Jan Nederveen brings together a huge range of experience and knowledge about the relationship between the economically advanced and the emerging, developing nations.
