The Hawaii state butterfly, the Kamehameha Butterfly – the first butterfly discovered on the islands in 1821– is one of over 20 species of butterflies and moths found in this region. This beautifully illustrated guide highlights most of these species and includes information on their life cycle. It also features illustrations of common caterpillars and pupae, and the most common dragonflies and damselflies. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Made in the USA.
