Enhance comfort through palliation and simple comfort measures. *

Be "up close and personal" with the dying. *

Deal with the psychosocial implications of physical changes in last days and hours. *

Develop supportive strategies for both patients and "family." *

Engage with the challenge of "being with" instead of "doing for." *

Enhance your understanding of the nature of grief. *

Strengthen communication skills and avoid common roadblocks. *

Support children who are living with dying by understanding the essential principles of how to talk about death with kids, what to say, and when to say it. *

Care for yourself by applying a strength based model of self care.
