Although any other 21 year old would be happy with just a stress-free day of peace and quiet on their birthday, orphan Diana Black wakes up to discover that her parents had left her a small fortune before their death. However, in between the elation of this news Diana also inherits The Black Locket, a mysterious family heirloom that sends her on a dangerous quest of self-discovery. Using any excuse to escape from her abusive grandfather who took her in after her parents' death, Diana leaves with the locket in an attempt to find out what other secrets her mother and father had left behind. Love strikes in the unlikelyst of places, and her search for the truth leads her into the arms of a good-looking and down to earth surfer who offers to aid her in her quest. As the two spend more and more time together their chemistry becomes too powerful to ignore, and it doesn't take long before the two spark up an intense romance. With a new found emotional strength Diana continues her search for answers, only to find that the demons of her past are about to rear their ugly heads once again. With a man by her side Diana races to uncover the truth about her parentage, find a way to get back at her abusive grandfather and finally get some answers as to just what happened to her family. However, what starts out as a personal quest for answers quickly transforms into a daring fight for freedom with love, life and family all hanging in the balance.
