Eisa System Architecture (PC System Architecture, Vol 2) Tom Shanley, Don Anderson
The Extension to Industry Standard Architecture (EISA) standard specifies a means of designing hardware that handles the internal communications and data exchange within a personal computer, and is specifically designed for data communications using 32-bit technology. This book details the difference between EISA and ISA specifications and describes the EISA bus structure, bus masters and slaves, bus arbitration, EISA interrupt handling and other areas.
