An Inclusive Identity transforms our experience from separate to whole. Our inner teacher of kindness reinterprets every day events in ways that lead us to freedom. Observing our minds with this guidance, we apply universal laws to our individual lives, using geometric metaphors as memory aids, releasing the identification with unconscious victim scripts that sabotage our happiness. This book integrates practical insights from modern physics, ancient Hermetic Laws, non-dual meta- physics, transpersonal psychology – and humor – as tools for undoing conflicting beliefs we've dreamed ourselves into. Symbols remind us to forgive the dreamer. We explore seven laws in depth and demonstrate how a mindfulness that embraces 'other' as 'self' can reverse the typical misapplication of these inescapable laws of Mentalism, Correspondence, Vibration, Polarity, Rhythm, Cause & Effect and Generation. Ubiquitous geometric symbols, paired to each of these laws – the circle, vesica piscis, sine wave, line, spiral, fractal and yin-yang – and their countless commonplace variations, seen from the vantage point of shared interests, reflect these ideas. The inspired use of natural law restores attributes of life, love, strength, purity, beauty, perfection and gratitude to our awareness. Our intentions of loving kindness make use of these memory aids for returning our minds to wholeness as we forgive ourselves, using dreams to heal instead of harm.
