## Nuthin' But Mech Vol. 3

Fifty-four artists contribute to this amazing third installment of the popular Nuthin' But Mech book series, based on the eponymous blog started by designer Lorin Wood in 2009 to create a place for his friends, colleagues, and acquaintances to share a common passion: robots.

The popularity of the blog led to the publication of the first Nuthin' But Mech book in 2012 with the work of 31 artists, followed by the highly anticipated second volume in 2014 with 40 artists. Nuthin' But Mech 3 is the biggest volume to date, with new and returning contributors, and it is dedicated to the memory of contributing artist Francis Tsai, a remarkable talent and inspiring figure who passed away from Lou Gehrig's disease in early 2015. In addition to featuring exceptional portraits that Tsai created using eye-tracking software, mech fans will appreciate the breadth of high-quality digital paintings, 3D models, as well as traditional works, by some of the most prominent artists and designers working in the entertainment industry today.

In appreciation of Francis Tsai's contributions to the artistic community, proceeds from the sales of this book will be donated to his family.
