Philosophy in America, Volume 1

Nancy A. Stanlick, Bruce S. Silver

Philosophy in America, Volume 1 Nancy A. Stanlick, Bruce S. Silver

This anthology presents selections from American philosophy, 1720 to the present, and a critical narrative of important philosophers working during the same time period. The selected works represent some of the defining and persistent trends in the development of American thought—historically significant and important as they point to the development of ideals and expectations that characterize the American experience. In-depth coverage includes primary selections from Jonathan Edwards (1703-58), to very recent philosophers such as Robert Nozick, John Rawls, Virginia Held, and Richard Rorty. It also looks at important elements of the development in American women's rights, civil rights, and mainstream philosophy.

MARKET For individuals interested in American philosophy and literature.
