Four tactical specialists from the USA, Australia, and the UK contribute their expertise to this book which demonstrates how a safe and more effective approach to tackling structure fires can result in reducing the life losses dramatically, as has been shown in the countries where 3D firefighting has evolved. Book and companion CD-ROM explore new approaches to tactical venting options and fire and confinement strategies. Offers primary teaching aids relative to various forms of rapid-fire progress, CFBT (Compartment Fire Behavior Training), and tactical fire attack (smoothbore vs. water fog vs. CAFS). First-hand views from fire chiefs in New York CIty and London debate the venting vs. confinement tactics head on. Learn how to implement CFBT procedures by using the methods based on the Swedish model with safe operating procedures developed in the UK.
