Formulas, Facts, and Constants: for Students and Professionals in Engineering, Chemistry and Physics H. J. Fischbeck, K. H. Fischbeck

This book provides a handy and convenient source of formulas, conversion factors and constants for the student as well as the professional. An extensive collection of the fundamental tools of mathematics, constantly needed in every area of the physical sciences and engineering, has been compiled. The International System of Units of measurement (SI) is given in detail and convenient tables for conversion between different units have been included. As a manual in the laboratory and for problem-solving a collection of frequently needed data and constants is given. Formulas and tables have been amended by examples in all of those cases where their use might not be self-explanatory. For the second edition, a chapter on "Error Analysis" as well as an Index for easy entry have been added.

From reader reviews:

Charles Tebo:

Book is actually written, printed, or illustrated for everything. You can realize everything you want by a publication. Book has a different type. As we know that book is important issue to bring us around the world. Alongside that you can your reading ability was fluently. A reserve Formulas, Facts, and Constants: for Students and Professionals in Engineering, Chemistry and Physics will make you to become smarter. You can feel considerably more confidence if you can know about everything. But some of you think that will open or reading some sort of book make you bored. It is not make you fun. Why they might be thought like that? Have you trying to find best book or suitable book with you?

Gladys James:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their down time with their family, or their particular friends. Usually they doing activity like watching television, gonna beach, or picnic inside the park. They actually doing same task every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? May be reading a book could be option to fill your totally free time/ holiday. The first thing that you'll ask may be what kinds of reserve that you should read. If you want to consider look for book, may be the guide untitled Formulas, Facts, and Constants: for Students and Professionals in Engineering, Chemistry and Physics can be great book to read. May be it could be best activity to you.

Rosa Flint:

Is it a person who having spare time after that spend it whole day by simply watching television programs or just lying on the bed? Do you need something totally new? This Formulas, Facts, and Constants: for Students and Professionals in Engineering, Chemistry and Physics can be the reply, oh how comes? The new book you know. You are thus out of date, spending your spare time by reading in this completely new era is common not a nerd activity. So what these books have than the others?

Benjamin Williams:

Reading a e-book make you to get more knowledge as a result. You can take knowledge and information from the book. Book is created or printed or descriptive from each source in which filled update of news. In this particular modern era like now, many ways to get information are available for anyone. From media social including newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to spread out your book? Or just trying to find the Formulas, Facts, and Constants: for Students and Professionals in Engineering, Chemistry and Physics when you necessary it?
