**Laparoscopic Inguinal Hernia Repair: Featuring Total Extraperitoneal and Transabdominal Preperitoneal Approaches: Laparoscopic Surgical Series** MedAscend, MedAscend Gen. Surgery Advisory Council

This CD-ROM demonstrates two approaches--the transabdominal and the totally extraperitoneal--that are used for laparoscopic repair of inguinal hernias. Coverage includes a detailed introduction to the anatomy of the extraperitoneal region. Particular attention is devoted to the method of correctly accessing the extraperitoneal space with a balloon dissector. Vulnerable anatomical structures, such as the spermatic cord, are carefully identified. *Windows / Macintosh Compatible*
