The latest edition of the original and best guide to Chicago architecture for tourists and residents.

One of the premier architectural cities of the United States—if not the world—Chicago boasts a breathtaking skyline, dozens of architectural monuments, and a historic legacy few other cities can equal. And it's still growing! Since its first appearance in 1965, *Chicago's Famous Buildings* has been the standard and bestselling guide to the city's architectural riches. Now thoroughly revised and updated, this fifth edition will remain the leading pocket guide to some of the world's greatest urban architecture.

*Chicago's Famous Buildings*, fifth edition, completely updated and revised by Franz Schulze and Kevin Harrington, covers more than a decade of extraordinary new architecture and takes a fresh look back at the city's classical legacy of Adler, Sullivan, Burnham, Root, Wright, and Mies van der Rohe. The authors have added many new descriptions and images of the most important projects in Chicago since the fourth edition, including the massive reconstruction of Grant Park around Frank Gehry's Music Pavilion, and they cover as well the current status of older buildings—some destroyed, others, such as Burnham's Reliance Building, marvelously restored and brought back to life. *Chicago's Famous Buildings*, fifth edition, also includes expanded sections on the city's future and the development of its diverse neighborhoods, presented with new maps to serve as an even more effective walking guide. A glossary of architectural terms, an extensive index, and more than sixty new photographs of both old and new buildings bring this guide completely up-to-date.

Authoritative, informative, and easier to use than ever before, this fifth edition of *Chicago's Famous Buildings* will serve tourists and residents alike as the leading architectural guide to the treasures of this marvelous city.
